

CLUB table

Geometric Club is an undemanding family of seats and a table, created for being used in different environments starting from sports clubs to picnic places in the parks.

The Club bench range comes with an option of being with or without the back support, as well as having table designs to complement the product range.

Club table

FEATURES

The combination of Club benches and tables enable the creation of enjoyable picnic areas.

The construction is designed so that wooden parts are easy to maintain and replace.

Hot-dip galvanized and powder coated steel frame has the best corrosion resistance and aesthetics.

No visible fixing materials on the top surfaces of the wooden parts to ensure a pleasing look and feel of the products.

Extery quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

WOOD

The wood selection includes double layer Osmo Natural Oil Woodstain coated thermo-treated ash, Siberian larch and tropical wood. Tropical wood is also available naturally, without surface top coating.

Thermo-treated ash OC-010

Tropical wood OC-425

Siberian larch OC-706

Tropical wood natural

METAL

The steel frame is available in hot-dip galvanized and powder coated finish. The hot-dip galvanizing is done according to ISO 1461:2009 standard.
