

# VANDAL 200

The spacious and strong Vandal 200 with a classic look is an ideal waste bin for areas where people move a lot and where maintenance is not done daily. Beaches, forest trails, stadiums and picnic areas need large-scale, prominent and strongly standing waste bins to keep the environment clean. Strong construction makes Vandal 200 very durable for vandalism. The lid prevents rain from falling in and the right height of the lid does not allow the birds to pull out the litter.

# Vandal 200

## FEATURES

The stainless steel cigarette extinguisher on the lid prevents burning marks.

Strong and durable hot-dip galvanized steel ensures durable waste bin in heavy usage and makes it longlasting in rough weather conditions.

Emptying: unlocking and locking with a triangular key. Easy maintenance ensured by the special holder for 200l plastic bag.

Spacious ashtray inside the lid opens with an easy movement.

EXTERY quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

EXTERY

## MATERIAL

Sheet metal corpus and metal frame are hot-dip galvanized and powder-coated. The thickness of the zinc layer is 275 g/m<sup>2</sup> in accordance with EN 10346:2006.

RAL recommendation by designer:

## INSTALLATION

Free-standing on a firm base.

Anchored to the pavement or to the substructure laid into the ground.

## EXTRAS

**Anti-graffiti coating** - we offer the possibility to cover the waste bin with anti-graffiti coating. The anti-graffiti coating is repellent to the new color and makes the surface of the product very easy to clean.

## DIMENSIONS
