

## SOLO 60 / P 60

Solo is a good and simple waste bin that is suitable for both the park and the city street. The curved sides make Solo visually slimmer despite its high capacity. The round openings give Solo a soft and modest look.

Thanks to the raised housing, snow removal and other maintenance of the surroundings are simplified.

The Solo P60 is a legless version that can be easily installed on the wall or on the post.

Design by iseasi

# Solo 60/P60

## FEATURES

Solo 60 is an elliptical-shaped waste bin which has litter openings on both sides of the product for convenient waste disposal.

Solo P60 is for wall or pole mounting.

As Solo 60 and P60 have no ashtrays it is suitable for places where smoking is prohibited.

Emptying: opened at the front with a triangular key. Removable inner container for litter. The door locks when closed.

The included inner container enables the need to use the plastic bags and makes emptying safer in the occurrence of broken glass.

Raised housing makes the maintenance easier during snowy weather conditions.

EXTERY quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

## METAL

Solo construction is available in hot-dip galvanized and powder-coated sheet metal. The thickness of the zinc layer is 275 g/m<sup>2</sup> in accordance with EN 10346:2006.

RAL recommendation by designer:

RAL 7016    RAL 6005    RAL 9007    RAL 9016

## INSTALLATION

Anchored to a firm foundation.

Anchored to the substructure laid into the ground.

Solo P60 mounting on a wall or post.

## EXTRAS

**Anti-graffiti coating** - we offer the possibility to cover the waste bin with anti-graffiti coating. The anti-graffiti coating is repellent to the new color and makes the surface of the product very easy to clean.

Extra markings in product code:

G- anti-graffiti coating

The use of the legend on the example of Solo 60 with anti-graffiti coating: **SOL60-G**
