

VANDAL 75

The geometrical simplicity and elegance makes Vandal 75 perfectly blend into urban space meanwhile being enough handsome eye-catcher.

The lid above the waste opening does not let the rain fall inside the bin and prevents birds from pulling out the litter.

Vandal's overall construction with fixed container and ashtray, together with "not a single loose detail" solution ensures the product durability for vandalism and misuse.

Design by Margus Triibmann

Vandal 75

FEATURES

The stainless steel cigarette extinguisher on the lid prevents burning marks.

The height of the plinth of 200 mm ensures comfortable maintenance also during snowy weather conditions.

Emptying: no key needed for opening as the bin is locked in the closed position with an additional latch-operated frame. The tilting container ensures easy emptying and convenient changing of the plastic bag.

There are special slots on the inner sides of the bin to secure the plastic bag ensuring an aesthetic appearance.

Spacious ashtray inside the lid opens with an easy movement.

EXTERY quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.
