

## JADA planter

The plant container Jada helps to create cozy green corners in the urban space. There are three different sizes to choose from, which allows you to approach the space flexibly and creatively.

The inside and frame of the plant container are made of hot-dip galvanized and powder-coated steel sheet, which makes the product extremely resistant to moisture and various weather conditions. The natural charm and softness is added by the high-quality knot-free wood boards on the outer sides.

With the Jada plant container, you can bring a piece of nature and warmth to even the coldest architecture.

## FEATURES

The Jada plant container is a great addition to beautify the entrance of a building or a street corner.

For plants with a shallow planting depth, you can choose an additional raised bottom container with a depth of 250 mm.

The construction with legs ensures a clean wooden surface and also makes the product easy to transport and place.

Holes in the bottom allow excess moisture to escape.

Also suitable for use with plant watering systems.

No visible fasteners on the surfaces.

Fits both in the Jada modular set and independently with other products from the EXTERY collection.

EXTERY quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

## METAL

The construction is made from hot-dip galvanized and powder coated sheet metal. The thickness of the zinc layer is 275 g/m<sup>2</sup>, which meets the EN 10346:2006 standard.

RAL recommendation by designer:

RAL 7016  
+ graffiti  
protection

RAL 9005

RAL 7039

## WOOD

The wooden panels on the outer sides of the container are available in high-quality, knot-free thermotreated ash and tropical wood.

Tropical wood

Thermotreated  
ash (oiled)

## INSTALLATION

Free-standing without permanent fix.

Anchored to a firm foundation.

## EXTRAS

**Raised bottom container** -  
for smaller and shallow planting depth plants.

Material marking in product code:  
a- thermotreated ash  
t- tropical wood  
B- raised bottom container

Example of the code use for the large container with tropical wood: JP01-B-t
